

Fresh Troops Thrown Into Fight by Slavs to Break Enemy Barrier

Russians Maintaining Their Assault Upon Austro-German Positions At Berezany—Captures Now Reach 300 Officers, 18,000 Men, And 29 Guns—Violent Artillery Duels On Other Points Of Galician Front—Desperate Effort To Break French Lines Northwest Of Reims Repulsed—French Capture Strong Salient.

(By Morning Bulletin Leased Wire)

The soldiers of revolutionary Russia have maintained their attempts to break through the Austro-German lines in western Galicia. Cheered by the results of the fighting during the first three days, General Brusiloff's men continue their efforts, especially in the region of Berezany and are throwing fresh forces against the Austro-Germans. During Sunday and Monday, the first two days of the new drive, the Russians captured 300 officers and 18,000 men, and on Tuesday and Wednesday probably added several more thousands to the total. Twenty-nine guns and 33 machine guns were taken from the Austro-Germans.

Violent artillery duels have been in progress on the Koniuchy-Ziochhoff sector, on the Stokhod in Volhynia, and at Brody, on the Galician-Volhynian border.

Desperate Effort Repulsed.

In Champagne, on the western front, the German crown prince has made another desperate and fruitless effort to break the French lines, northwest of Reims. Attacking in force along an eleven mile front, the Germans made especially strong efforts around Cerny and Allieres, and against the Calonne Plateau. The French repulsed all attacks with losses. After checking the Germans, the French took the initiative in a small operation east of Cerny and captured a strong German salient. German attacks on the left bank of the Meuse were repulsed.

Raids and patrol engagements have occupied the Germans and British further north. Several Austrian attacks on the Carso, south of Gorizia, were checked by the Italians, Rome reports.

PETROGRAD, July 4.—In the fighting of Sunday and Monday, the Russians captured 300 officers, 18,000 men, and 29 guns and 33 machine guns were captured by the Russians, the war office announced. The statement reads:

"In the direction of Kovel (Volhynia) there was artillery firing.

"In the direction of Ziochhoff (Galicia) our scouting parties in the region of the village of Godziszyn captured eleven German machine guns. An attack by one of our storming groups did not materialize. Enemy counter attacks in the direction of the village of Mieszkowice were repulsed by our rifle and machine gun fire.

"According to a preliminary estimate on the fighting of Sunday and Monday we captured 300 officers, 18,000 men, 29 guns and 33 machine guns.

"Caucasus front: During an engagement we captured the village of Panjwin."

German Raids

LONDON, July 4.—The official statement from the headquarters in France, issued tonight, reads:

"Early this morning the enemy raided one of our posts south of Lens. One of our men is missing.

"As the result of another raid the enemy attempted east of Loos, four wounded prisoners were left in our hands.

"The enemy artillery was active today north of the Scarpe and in the neighborhood of Ypres and Messines. The enemy's aerial activity continues. In the air fighting yesterday three of the enemy machines were driven to the ground and five others were driven down out of control. Another was shot down by our anti-aircraft guns. One of our airplanes failed to return."

"Capture Strong Salient.

PARIS, July 4.—The official communication issued by the war office reads:

"The enemy violently bombarded our lines today, particularly in the region of Pantheon, La Foyette, in the neighborhood of Hurbie and on the Vaucouleurs Plateau. It is confirmed that the German attacks last night, which developed along a front of about seventeen kilometers, cost the enemy exceptionally heavy losses without bringing him either gain of ground or prisoners. Everywhere else we have completely maintained our positions.

"The Germans have not renewed their attempts, but on the contrary we have carried out east of Cerny a detailed operation which enabled us to capture a strong salient held by the enemy.

"Jets of Liquid Flame

"On the left bank of the Meuse three successive attacks accompanied by jets of liquid flame directed against our trenches southwest of Hill 304, were repulsed. Heavy artillery fighting continues very spirited in this region.

"Belgian communication: There was slight activity on the part of the enemy artillery in the sector of Steenstraete and Het Sas. In the region of Pyperale intense artillery duels occurred. Last evening an enemy airplane was brought down in an aerial combat by one of our machines and was completely destroyed.

Four Youths Killed And Nineteen Persons Are Injured.

SEQUEL TO POTATO RIOTS OF TUESDAY

Protest Meeting Against "Brute Forces Wealthy Classes."

(By Morning Bulletin Leased Wire)
AMSTERDAM, July 4.—Four youths were killed and nineteen persons injured when police and troops fired on a mob which was pillaging shops last night. The clash followed a parade of a large number of workmen through the streets contrary to police orders.

Previously a protest meeting at the Diamond Bourse denounced the "brute forces of the wealthy classes," and the action of the police and military in connection with the scarcity of potatoes and their exportation to England. The meeting adopted a resolution in favor of a twenty-four-hour general strike.

Rioting also occurred in the Kaatsburg market district. Fresh troops have been summoned to Amsterdam.

AMSTERDAM, July 4.—Further rioting occurred yesterday afternoon near Handelskade. A crowd of women stormed a cold storage warehouse and carried off carcases of pigs, which they distributed.

Soldiers and police charged the crowds and cleared the streets.

Stores in the city were looted and the streets were filled with debris.

The police used tear gas to disperse the crowds.

The rioting continued throughout the night.

The police fired on the crowds several times.

The rioting was the most serious since the beginning of the war.

FLOWERS BLOW AMONG DEBRIS OF SHOT, SHELL

Roses And Strawberries In Fire-Swept "No Man's Land."

THOUSAND YARDS NEARER CENTRE LENS

British Efficiency Wearing Down Morale Hun Troops.

(By Canadian Overseas Correspondent)
CANADIAN HEADQUARTERS IN FRANCE, Wednesday, July 4.—(Via London).—The enemy raided one of our advanced posts in the flooded area to the south of the Souchez River last night, inflicting a few casualties among the defenders. Our artillery fire was promptly let loose upon the raiders, causing a hurried retreat.

Elsewhere in the region occupied by the Canadian corps, the artillery activity has become somewhat spasmodic. At times, however, it is extremely violent, reaching drum fire intensity. It has been noted that the enemy's fire is becoming more and more accurate, and that after these outbursts his fire sinks to subnormal proportions.

Houses in Ruins.

In the important mining centres of Lens and Leval, in the Canadian zone, it is doubtful whether there is a single uninjured house to be found. In Leval the contrast between the houses and the grounds surrounding them is startling.

Near Bois du Riamont yesterday the correspondent came upon a garden—behind a mansion torn to tatters by the shells of both armies—in which roses still bloomed profusely, overcoming with their perfume the tainted atmosphere of the adjacent battlefield. Not only were the shrubs and flowers uninjured, but strawberries, raspberries and red currants which had matured in this desert garden which was until recently out in "No Man's Land," were to be had for the picking. A week ago no one could have gathered the fruit without risking his life. The enemy front line was then only a few yards to one side of the garden, and one of our own outposts was a few yards on the other side.

Identified by Flowers.

Even many miners' cottages, smashed utterly beyond recognition under the shell fire, may still be identified by familiar flowers surrounding them, which bloom triumphantly amid the debris.

As a result of our recent advances, and despite the German counter-strokes, "No Man's Land" is now moved almost a thousand yards nearer the Canadian position. It was a week ago on the Leval sector.

In view of the renewal of the struggle on the Russian front, it is interesting to note that among the German units now facing the Canadian position there has been identified one regiment which had been sent to the Russian sphere of operations some months ago because it had failed to stand up under the British gunfire at the battle of Arras. After a course of training on the east front, it has been sent back here to redeem its reputation.

Morale Deteriorating.

Examination of the now easily apparent rapid deterioration of the morale of the German armies convinces one that the demoralization that is to be seen in many clashes between the two armies is becoming more and more widespread in the ranks. It is not a decrease of German efficiency so much as a tremendous increase of that of the allied opponents.

The use of artillery aircraft, and gas, has affected the result in the field of operations. Scarcely less important as an element in the situation as concerns the German morale is the feeling that the German ranks of the enemy that victory is no longer possible and that Germany's dream of world power cannot be realized.

Investigation Into East St. Louis Riots To Be Held By Governor.

(By Morning Bulletin Leased Wire)
EAST ST. LOUIS, July 4.—When Governor Lowden departed from this city today he left behind a statement that he would investigate fully the charges of inefficiency, lack of discipline and laxness against the militiamen who were here during the riots last Monday.

The governor made the assertion on an executive session of the chamber of commerce last night, but the information was withheld at the time, it was admitted in an authoritative source today.

The governor and Adjutant General Frank S. Dickson requested the chamber to authenticate and make a record of the charges against the soldiers so that the truth might be sifted from rumor.

Adjutant General Dickson, with 2,500 militiamen on hand, was confident that there would be no further outbreaks. Strong guards have been posted at the packing and other big plants.

Returned Soldier Drowns In South Cooking Lake—His Companion is Rescued

William Hyndman, a returned veteran, who is well known in this city, was drowned in South Cooking Lake at about 9 o'clock last night when the boat in which he was crossing the lake in company with Sydney Bradburn, son of Robert Bradburn, of Edmonton, was upset. Young Mr. Bradburn was saved by Frederick Robertson, who saw the accident from the verandah of his cottage and put off in his launch to the scene.

Hyndman, who has made his home at the Alberta hotel for the past year and a half, and was recently returned as disabled from overseas, was about 40 years old.

The two happened to go down to the lake together on the motor livery last night. Mr. Bradburn was bound for his father's cottage, where the family are spending the summer, on the opposite side and they apparently agreed to use the same boat in making the crossing.

The lake was perfectly calm at the time and the cause of the accident is something of a mystery. The boat was some distance from the shore when cottagers, who were sitting on their verandahs, saw Hyndman stand up in the boat and apparently fall over the side. In falling the boat upset and Bradburn, too, was thrown into the water.

Mr. Robertson made a dash for his gasoline launch and went at full speed for the scene. Mr. Bradburn was holding on to the overturned boat in an exhausted condition, but Hyndman was nowhere to be seen. The body had not been recovered up to a late hour.

Hyndman came from Exeter, Ont., where he was one of a large family. He was one of the best known old timers in Winnipeg and had been in Alberta several years. For a time he was fire ranging for the Dominion government in the Great Waterways district. More recently he had been employed in Jasper Park and was intending to return there shortly. He has relatives in the east and Landlord Gillespie of the Viking hotel is his brother-in-law. He is believed to have made the trip to Cooking Lake, which ended so unfortunately, almost on the spur of the moment, as a holiday outing before returning to Jasper.

Many of the 12,000 men employed in the shipbuilding plants decline to join the strikers on the ground that doing so would be a blow to the government war preparations. These men announced that they would finish the government work despite orders of the union leaders.

EXTENSION IS AGAIN BEING DISCUSSED

Ottawa Paper Says Subject Will Be "Broached" After Constitution Carries.

(By Morning Bulletin Leased Wire)
OTTAWA, July 4.—The Evening Citizen says:

"When constitution is out of the way, the extension of parliament will be broached. The expression 'broached' is used because if the proposal is strenuously or to any general extent resisted by the Opposition, it is unlikely to be pressed to a division. If many Liberals vote for it as for a concession, the government possibly may regard this as justification for putting it through, and even though unanimity is lacking, if it is not put through, an election, of course, will be necessary and it is planned to have it preceded by legislation in amendment of the franchise, railway legislation, the highways bill and other things.

In the meantime, the cabinet reconstruction that is planned would be given effect to. It is believed that a number of Liberals will join the cabinet, not so much from the house as from outside.

If a substantial union is thus effected, it is quite conceivable that on the issue of conscription there may be an appeal to the country without all the legislation referred to or without the rather prolonged delay which its enactment would entail."

"We All Hope To Be Captured; Otherwise We Shall Go Mad"

London, July 4.—(Via Reuter's Ottawa Agency)—Reuter's correspondent at the front gives extracts from a German letter found at Messines Ridge, dated from a "shell-hole in hell." It vividly depicts the feelings of the German troops.

"We have been fourteen days under a hellish fire day and night," writes the German. "We crouch together in holes, waiting our doom, with the dead piled up here. All night we lie with gas masks on, as the British fire gas shells. Hundredweights of aerial torpedoes thrown at us make trench work impossible. So far our division, composed of three regiments, has lost 3,400 men in barely three months.

"We are quite helpless against the British. We cannot sit or lie down. These big British shells would break the heart of a lion. Our artillery dare not fire in the daytime owing to the great activity of the British airmen. We all hope to be taken prisoners; otherwise we shall go mad."

OMAHA SPEEDSTER DOES 105 AN HOUR FOR HUNDRED MILES

Sixteen Start in 450-mile Grind—Engine Trouble Causes Some To Drop

Omaha, Neb., July 4.—Sixteen got away in the 450-mile automobile race before a big crowd at the Omaha Speedway this afternoon. Louis Chevrolet, whose fastest lap at a 109-mile pace in the qualifying heats gave him the pole position, took the lead at once. Charles Kirkpatrick was 2nd and Joe Thomas 3rd. The weather was perfect.

At the end of one and a half laps the car driven by Tom Alley skidded and jumped from the track. Billy Salmon, his mechanic, was badly hurt and was removed to a hospital, but Alley's wounds were slight.

A broken axle compelled Louis Chevrolet to leave the track at the end of the 57th mile. He had led up to that time. Chevrolet, Kirkpatrick and Thomas, in the order named, were still leading when the first 50 miles were covered. Toft and Mason had been forced out of the race by engine trouble. Kirkpatrick was leading at the end of the hundred-mile point, his speed for the distance averaging 105 miles an hour. Thomas was second and Mulford third. Pete Henderson dropped out on account of engine trouble.

The best picnic ever held here was the U. F. A. Red Cross event which took place July 2nd, south of town. Horse racing, baseball, football and other popular sports made the day, which was perfect for an outing, very enjoyable. Great credit is due the committee from the Fairbairn U. F. W. A., led by Mrs. W. Hallum and Mrs. F. W. Smith, who acted with the U. F. A. committees. The receipts amounted to nearly \$500, which goes to the Red Cross. The Loughheed band was present and in the evening a very jolly dance was held at the Fairgrove school.

A fine spire is being built on the English church, which adds greatly to the appearance of this building. J. L. Sparrow is away south for a trip.

ELEVEN ARE KILLED; THIRTY-SIX INJURED WHEN HUN AIRPLANES RAID HARWICH, EAST ENGLAND

London, July 4.—From 12 to 14 German air raiders today dropped bombs on Harwich, a seaport town in Essex, it was officially announced. Eleven persons were killed and 36 others injured. Enemy airplanes appeared over the Essex coast about 7 o'clock this morning, says an official communication. "Our anti aircraft guns came into action," the announcement continued. "Some bombs were dropped. Details have not yet been received."

Two Machines Brought Down.

Two of the German machines that took part in the air raid on Harwich were brought down ablaze by British naval aircraft, and a third machine was brought to earth in a damaged condition, it is officially announced.

All the British airmen who engaged the Germans emerged safely from their flights.

Fought Invaders Among Clouds; Hostile Craft Driven Seaward

The official statement follows:

"A squadron of some 12 to 14 enemy airplanes attacked Harwich from a northeasterly direction about 7.05 o'clock this morning. Bombs were dropped and latest reports state that eight persons were killed and 32 injured. Only slight material damage was caused.

"Fire was opened from the anti-aircraft defenses and the enemy's formation was broken up, although the low-lying clouds rendered the visibility very bad. The raiders also were engaged by our aircraft from a neighboring station.

"After dropping their bombs, the enemy squadron turned seaward without attempting to penetrate inland. The whole raid only occupied a few minutes."

There was a lively fight between British and German airplanes during the attack on Harwich this morning and only about five minutes elapsed before the defensive aircraft and the

anti-aircraft guns drove off the invaders, according to late dispatches. It was a very misty morning, but the German machines could be distinguished at intervals when they appeared from behind cloud banks.

The German squadron travelled at great speed and in close formation, heading first one way and then another in erratic manner. Bombs were dropped in rapid succession. British airmen immediately took the initiative, and, operating under the most adverse conditions, intercepted the Germans and broke up their formation.

Frustrated in their enterprise, the Germans turned toward the sea. Their retreat was marked by a series of duels with British aviators. One British machine was seen to engage two Germans.

Anti-aircraft guns are believed to have registered some hits, although clouds prevented the gunners from getting a clear view of their targets.

The Daily Poem

THE ONE WOMAN

We've toasted all manner of women,
We've pledged them the old and the young,
Since days of the gallant knight errants
All womanhood's praises we've sung.
We've pledged them for love and for duty,
For trust and faith near divine—
We've held them our glasses and pledged them
In our first and last bumpers of wine;
But somehow, in seal for their beauty,
Fond eyes and their lily white hands,
We've overlooked one in our pledging,
The Woman Who Understands.

Our poor limitations and uses,
She knows them far better than we.
She bravely accepts our excuses
And motives refuses to see;
She overlooks all of our errors,
The things we don't do that we should,
And knows, like ourselves, we'd be better
And worthier men if we could;
In the end, when our errors confront us,
She soothes us with comforting hugs,
And erases the penance—God bless her!
The Woman Who Understands.
—John D. Wells, in Buffalo News.

An orchestra of considerable interest, organized by Mr. G. L. C. Moore, was one of the attractions at the concert given in the club rooms of the Great War Veterans' Association on Wednesday night. A very large crowd gathered in spite of the warm summer night and listened with much appreciation to a splendid program. Dr. Collins made an excellent chairman. The collection amounted to twenty-nine dollars. Miss Jessie Cameron, who graciously consented to help, sang with much fervor and in excellent voice the "Marseillaise," which was greeted with profound applause. All the soloists did well and the numbers were most interesting. The members of the orchestra were as follows: First violin, Messrs. Mortimer Johnson, A. W. Michel; second violin, Messrs. C. M. Boyton, A. W. Pae; viola, Mr. Graham; violoncello, Mr. G. L. C. Moore; double bass, Mr. W. F. Porter; piano, Mr. H. S. Coulter.

Mr. and Mrs. Dickson will reside in Edmonton. Despite the bad weather, the coming event given in the recent issue of the Eye Opener, the marriage on Saturday of Mr. R. C. Edwards, its proprietor and editor, and Miss Kate Penman was quietly celebrated, unwitnessed by friends, on Saturday afternoon at Mount Royal college. Rev. Dr. Kerby performed the ceremony. There were about twenty guests. The bride was very pretty and charming in a smart traveling suit of navy blue, with a leg-horn hat. Later Mr. and Mrs. Edwards left for Vancouver, and will spend their honeymoon at the coast—Calgary Albertan.

THE WOMEN'S EXCHANGE

In accordance with requests by a number of readers, The Bulletin has decided to run the questions and answers the same days in future in this department instead of as at present giving the answers on the day following the questions. As in the past all inquiries addressed to this department of the Bulletin will be given the most careful attention.

TODAY'S INQUIRIES.

Which cracks more easily, thick or thin glassware, and why?
Thick glassware cracks more easily under heat than thin glass, as the outside of thick glassware does not always expand rapidly enough.

When making jelly is it better to cook a large quantity at a time or a small quantity?
When making jelly it is better to cook a small quantity at a time than a large quantity; if necessary to cook a large quantity, divide it among several small receptacles.

Has an overamount of sugar a hardening or softening effect on jelly?
An overamount of sugar, instead of hardening jelly, will make it soft and syrupy.

Housewife's Recipe.
To the Editor of Woman's Page:
Dear Madam—Tomatoes are plentiful in the market and make good salads or luncheon dishes. Filled in this way they are good: Scoop out the centers of the tomatoes so that a space is left, and to the pulp add a little onion juice, chopped green pepper, a little chopped cabbage, a few chopped nuts. Mix with mayonnaise, fill the shells with the mixture, put a little more dressing over the top of each tomato and, after chilling, serve on crisp leaves of lettuce.
(Mrs.) W. J. C.

Washing Blankets.
To the Editor of Woman's Page:
Dear Madam—Please publish directions for washing a pair of good blankets before storing them away; or is it better to wash them in the fall?
(Mrs.) J. A. K.

The blankets should be thoroughly cleaned before storing away for the summer. Many persons prefer to have valuable blankets cleaned by a professional cleaner. This is one method of washing them. Put one pint of soft soap and two tablespoonfuls of borax in a tub of cold water. When the mixture is dissolved put in the pair of blankets and let them remain over night. Next day wash and drain them (do not wring) and hang up to dry.

Gingham Frocks for Seashore Wear.
To the Editor of Woman's Page:
Dear Madam—I am a young girl of eighteen and expect soon to go to the seashore for the summer. Do you

think gingham are nice to wear in the mornings? Which color stands the sun better, blue or lavender? Do they fade much in washing?

VIOLET.
Gingham frocks are most suitable for morning wear at the seashore. Blue stands the sun much better than lavender. If your gingham is of good quality it will fade very little.

Send Present to Bride.
To the Editor of Woman's Page:
Dear Madam—Should I be invited to a wedding which takes place next week. I have never met the bride, but the bridegroom is a friend of mine, and I want to send him a present. As I do not know the bride, should I address the present to him?

Even though you have not as yet met the bride, the present should be sent to her. Wedding presents are never sent to the bridegroom.

CRISIS OF WOMAN'S LIFE

Change Safely Passed by Taking Lydia E. Pinkham's Vegetable Compound.

Wagoner, Okla.—"I never get tired of praising Lydia E. Pinkham's Vegetable Compound because during the change of life I was in bed two years and had two operations, but all the doctors and operations did me no good, and I would have been in my grave today had it not been for Lydia E. Pinkham's Vegetable Compound."

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dizziness, impeding evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness should be headed by middle-aged women. Lydia E. Pinkham's Vegetable Compound has carried many women safely through the crisis.

ROSS FLATS SUNDAY SCHOOL HAS PICNIC

Ross Flats Presbyterian Sunday School held a picnic at East End City park on Dominion Day. A most enjoyable time was spent by the children. Substantial piles of cakes, candies and ice cream disappeared in an astonishing manner. The weather was ideal and together with the swings, the roundabout, paddling in the pool, selections of music by the Sunday school choir, and keenly contested sports, was the history of the school. The following are the results of the competitions: Flat races, scholars under 6 years, 1st, Edna West, 2nd, Margaret West, 3rd, Edna West, 4th, Margaret West. Boys' 3 to 10 years, 1st, Phillip West, 2nd, George Shooter, 3rd, Edna West, 4th, Margaret West. Girls 3 to 10 years, 1st, Edna West, 2nd, Margaret West, 3rd, Edna West, 4th, Margaret West. The egg-and-ladle race was particularly well contested, there being sixteen entries. After four heats the final was decided by a few inches. 1st, Mamie McBain; 2nd, John West, Neta Murphy and Elsie West won the three-legged race. A level wide path on which to run races, a dining pavilion as in the South Side park, and the construction of a "maze" would be a great privilege for young folks.

SHIPPING LOSS SHOWS DECREASE; U-BOATS FOILED

Hindenburg's Prediction is Given Prompt and Convincing Reply

Hindenburg's prediction on his return from Austrian headquarters that Germany's enemies would be forced to make peace in the near future if the German submarine had done its work until the end of the war, is given a prompt and convincing reply in this week's figures of sinkings of vessels.

The total was the smallest in several weeks. The conclusion has been reached that it is impossible for the submarines to maintain any average of sinkings which will have an appreciable effect on the overseas communications of the allies.

The weekly shipping summary, issued today, shows that 15 British merchant ships of more than 1,600 tons were sunk and 5 vessels of less than that tonnage. Eleven fishing vessels also were lost.

Forecast that the summary of British shipping losses by submarines and mines covering last week would show the smallest number of sinkings in many weeks were verified by the actual figures. The total of 20 merchant ships sunk compares with 28 the previous week and 32 for each of the two weeks preceding.

The heavy falling off in tonnage sent to the bottom is emphasized by the fact that in contrast with the 18 vessels of more than 1,600 tons now reported sunk, the sinking of 21 vessels in this class was announced last week, 27 the week previous and 22 the week before that.

It is not until the report of June 3 is reached that figures as low as those for the current week are encountered. In the height of the destructive submarine campaign in April forty large vessels were sunk in one week and 38 in another, while the total of large and small vessels reached 55 in the week ended April 21.

When Does the Balloon Go Up?

Today's Anniversaries

On July 5, in the year 1100, Jerusalem was taken by the Crusaders after a siege of five weeks and given up to massacre and pillage. Ten thousand persons are said to have lost their lives in the sack of the city. On this day in the year 1535, Thomas More, the celebrated English statesman, was beheaded. He was doomed for his adherence to the papal supremacy to descend from the highest office to a cell in the tower. He suffered death rather than yield his opinions. On July 5, 1767, John Key, said to have been the first person born in Philadelphia, died at Kennet, Pa., at the age of 85. On this day in the year 1783, Mather Byles, a distinguished Boston clergyman, died. He was a great wit and scholar and had carried on a correspondence with Pope, Landowne and Watts. He was suspected of being a Tory during the revolution and frequently, on complaint, was sentenced to be confined to his own house with a sentinel over him. On one of these occasions he induced the sentinel to go on an errand for him, promising to have his own door, the market over his shoulder, keeping guard over himself.

Use Coconut Oil For Washing Hair
If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoo anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and is very hard just plain mulified coconut (which is pure and entirely greaseless), is much better than the expensive soap or anything else can use for shampooing, as this possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two spoonfuls will make an abundant rich, creamy lather, and cleanse hair and scalp thoroughly. The hair rinses out easily, and every particle of dirt, dandruff, and excessive oil is quickly and evenly, and it leaves fine and silky, bright, fluffy and to manage.

You can get mulified coconut at most any drug store. It is cheap, and a few ounces is enough to last everyone in the family months.

Food Riots Occurred in 4 German Cities

Copenhagen, July 4.—A semi-official German statement reaching here reports that food riots occurred not only in Stettin and Dusseldorf, but also in two Silesian cities, Gielwitz and Glogau. Troops had been called to restore order, which was accomplished without actual firing. Hindenburg is the name and assumed the field marshal's name as a mark of loyalty to the state.

NEAR COMPLETION
IN UNITED STATES

Washington, July 4.—Rapid progress in the construction of the aviation fields for training fighting fliers for the war is being made, according to Howard Coffin, chairman of the aircraft production board, who has just returned from an inspection trip. He declared today that the Chanute field, at Kankakee, Ill., where 2,000 men are at work; the Wilbur Wright field at Dayton, Ohio, on which 3,000 workmen are employed; and the Thomas Selfridge field at Mount Clemens, Mich., would be completed by July 15.

"Work on the Chanute field has broken all records," said Mr. Coffin, "half a million dollars worth of buildings have been put up practically within a month. They form a village a mile long and the flying field which they occupy was a few weeks ago simply a collection of corn fields."

ANOTHER BALL LEAGUE WILL STOP PLAYING

Three-I League Forced To Cease Operations By War Conditions.

CHICAGO, July 4.—War has forced the Three-I League, one of the oldest minor leagues in the country, to close its parks. The organization will suspend its season next Sunday, President A. R. Kearney announced tonight. The eight clubs have lost approximately \$25,000 since the start of the season eight weeks ago.

Although the league faced unprecedented weather conditions early in the season, President Kearney said that subscriptions of the Liberty Loan and Red Cross and the general lack of interest in the game owing to the war contributed largely to the league's failure.

When Does the Balloon Go Up?

Sporting Facts and Fancies

The Pittsburgh Pirates are going to have a wishing bee one of these days and when they all get together they're going to wish that Al Marmax wakes up. Not that Al isn't doing fairly well, but he can play so much better ball than he is at the present time. If he comes to life the Pirates promise to give the other National league teams a run for their money.

And speaking of wishing, there's another bunch that is strenuously occupied with that engaging pastime. That bunch is the, or, are the Boston fans. The gloom in Beantown is so thick that you can cut it with a crow bar since the Braves have had their slump.

Aha! Hughie Jennings has decided that it's time for him to get on the coaching lines and put some extra pep into his Tigers. He has really accomplished something, too, for since he has resumed coaching the Tigers have delivered a better brand of ball.

Fritz Meisel is coming back into his own and is again showing the speed which gave him claim to the title of best base runner in the American league. He has been better, that is certain, but for all around good playing he certainly deserves the bouquet. And the Yankee fans are ready to hand it to him any time.

Those Were The Happy Days.

The most one-sided score between two professional clubs was played July 18, 1874, when the Mutuals defeated Chicago by thirty-eight to one. Chicago made only two hits. The largest score on record in a game between two professional teams marked the game between the Athletics of Brooklyn and the Athletics of Philadelphia on July 5, 1869, just forty-eight years ago today. The former team won by a score of fifty-one to forty-eight. Fifteen thousand people were present, the largest number up to that time that ever attended a ball game. The games of the present day look very small when compared with those of the 60's and 70's, as far as scores are concerned. An illustration of how they scored runs in the "good old days" is herewith given: On May 17, 1870, a game was played at Cleveland between the Forest City team and a team of amateurs. It only lasted five innings, probably because the winners were probably exhausted from running. Otherwise there is no reason why the game didn't go on. Possibly the losers decided they couldn't catch up, anyway, seeing that the other team was 131 runs ahead of them. The victors who did all this running were the men from the Forest City club, while the Athletics, the amateur team, managed to score just one run and wouldn't have scored that except that perhaps their opponents got tired and began to play a loose game. The victors made 101 hits for a total of 180 bases. However, that wasn't the largest score that was ever made. On June 8, 1869, there was a game at Buffalo, N. Y., between the Niagara and the Columbus teams. The final scores were: Niagara 299; Columbus 10. Just for fun, here is the score of that first game in Cleveland, given by innings, of which, as you will remember, there were only five:

Forest City . . . 52 16 53 1 10—132
Atlantic . . . 0 1 0 0 0—1
Gee, that must have been an awful merry-go-round!

1909—Frank Mantell defeated Jack Twin Sullivan in twenty rounds at New York.

1909—Cyclone Johnny Thompson defeated Danny Gordon in ten rounds at Hammond, Ind.

LIMITED RACING

LONDON, July 4.—Yielding to the strenuous protest of the Jockey Club the war cabinet has decided that a limited amount of racing will be allowed in England from the middle of July to the close of the racing season. It suggests that the Jockey Club may arrange approximately forty days of racing during this period, but that the race meetings be limited to Newmarket and such places as are sanctioned by the war office.

EASTERN MILLS SHOW DEMAND; TRADE LIMITED

Cash Wheat Prices Unchanged at Winnipeg—October Closed 1/2% Lower

Winnipeg, July 4.—Trading was very limited; offerings on the whole were more liberal than on Tuesday and there was a fair demand from eastern millers. There was a good demand for oats to fill space in boats arriving at Fort William, but no new business was located. Cash prices for wheat were unchanged for the day for wheat, but 1/2% to 1/4% higher for oats and 1/2% to 1/4% on flax. October wheat closed 1/2% lower; July oats 1/2% higher; October oats 1/2% lower. Flax closed 1/2% higher; October was not officially closed. Today's weather map was decidedly encouraging. The maximum temperature was 90 at Cypress River, Man., and minimum 41 at Regina. The high temperatures recorded in the Northwest were reported at Humboldt, Broadway, Moccasin and Estevan, with traces at Edmonton.

RUSSIA ELATED BY SUCCESSES, CHEER TROOPS

Germans Had Erected Three Lines Of Defense In Positions Naturally Formidable.

Petrograd, July 4.—In the fighting of Sunday and Monday 300 officers, 18,000 men, 29 guns and 33 machine guns were captured by the Russians, the war office announces.

Pro-war and pro-Kerensky demonstrations, headed by Russian and French officers and including a number of wounded Russian soldiers, are taking place in the city streets. For the first time since the revolution the Russian national flag is to be seen. It decorates pictures of Brusiloff and Kerensky. The number of these demonstrations is small, but is increasing.

A correspondent at Minsky reports that fraternizing with the enemy has entirely ceased. The slightest attempt to leave the trenches is immediately stopped by artillery fire from the rear. This is the result of the decision of regimental and company committees.

Three Lines of Defense.
A correspondent describes the scene of the main fighting in the Zlotiliana region in Galicia and says the enemy strongly posted triple lines of permanent trenches in the hills between which flows Kinichy stream, 12 miles northeast of Berezany. The Russians, with an artillery fire exceeding anything yet used on the Russian side, smashed great fields of wire work after two days' bombardment and cleared the path for stormers. These were necessarily picked men.

Considerable precautions had been taken to assemble regiments of infantry upon whom more or less reliance could be placed, although until put to a test even their own officers could not pretend to know what would happen. The trial proved, whatever may be the case on the rear, that there are at the front men who are worthy of Russia's name. The losses have been heavy, which is in accordance with Russian tradition. Russian armies holding world's records for ability to suffer without losing military qualities.

Germans and Turks.
Southwest of Berezany the fighting seems to have been even more severe and success still hangs in the balance. This region is also hilly and wooded. The Germans had special redoubts, which required long hammering by the guns before an attack was possible. These defenses were held by the Germans and Turks—a combination which has always proved formidable.

After very hard fighting the Russians won several points and captured 2,000 prisoners. Some points changed hands several times. It was here that the Russian losses in officers was particularly serious.

The general scope of action indicates that the movement is on an extended scale and that the battle now begun is likely to take weeks to reach its conclusion. The fighting is in a territory which, before the war, belonged to an enemy. The provisional government announces that all regiments engaged in this new initiative will henceforth be known as "Eighteenth of June" regiment, that being the old style date of battle. June 18 has been a memorable day for Russia for more than a century.

CAPT. FLANAGAN, SPORT PROMOTER, IS COMING HOME

"Tom" Sent Back From English Camp For Disposal—Was in France

London, July 4.—The following have been struck off the strength of the Canadian overseas forces for the reasons specified: Lieut. Col. A. W. McLellan, British Columbia regiment, returned to Canada for medical treatment; Major E. C. Woolsey, general list, resigned in Canada; Captain T. C. Flanagan, C.A.P.C., returned to Canada for disposal; Lieut. E. A. Drake, general list, returned to Canada for medical treatment; Lieut. A. J. Roberts, Saskatchewan regiment, returned to Canada permanently unfit; Lieut. D. B. Manley, C.A.S.C., resigned commission in Canada.

Capt. T. C. Flanagan, is the famous "Tom" athletic promoter and former manager of the Indian runner Longboat (now also overseas). Capt. Flanagan went over as paymaster of the 18th Sportman's Battalion from Toronto. He staged several big boxing bouts in British training camps. He has been in France for some months.

WOMEN ARE DRIVEN FROM WHITE HOUSE BY ANGRY POLICE

Protesters Not Allowed to Have Own Way on Glorious Fourth

Washington, July 4.—Protesters of the women's party attempted to carry out their threat to defy the police and picket the White House in force promptly at noon today, as an Independence Day suffrage demonstration. Large forces of police were on hand and drove the sentinels away. Thirteen of the women were arrested on the charge of obstructing the traffic after they had made two unsuccessful attempts to carry on the demonstration.

PROTEST POSTAL LAWS.

Montreal, July 4.—At the council of the empire press union on Tuesday, the London correspondent of the Gazette cables, "protest" was made against the recent restrictions against the importations of overseas newspapers in bulk, particularly for distribution to overseas troops, and to the hospitals. The chairman, Lord Burnham, undertook to approach the president of the paper commission on the subject.

HOOVER HONORED BY FRANCE.

Paris, July 4.—Herbert C. Hoover, the American food controller, was accorded, on the occasion of the anniversary of American Independence Day, the Cross of the Commander of the Legion of Honor by President Poincaré in recognition of Mr. Hoover's interests in provisioning Belgium and Northern France. Whitney Warren, of Boston, and Frederick Conder, New York, received the Cross of the Officer of the Legion.

GRANTS AMNESTY.

Amsterdam, July 4.—Emperor Charles has granted amnesty civilians convicted of treason, in majesty, offenses against public peace and rioting. The emperor's action has created a sensation in parliamentary circles, but is expected to have a good influence on the further course of the parliamentary session.
